To Whom It May Concern,

RE: RENTAL APPRAISAL – 202/1 Frank Street, Glen Waverley VIC 3150

Thank you for allowing Regent Estate Agents to advise you on the probable rental price. Determining probable rental value is an important responsibility and we consider the advice we provide needs to be accurate, educated and based on tangible facts.

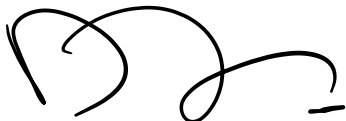

After analysing recent comparable rental records gained from our own experience and RP Data. **202/1 Frank Street, Glen Waverley VIC 3150** has a current rental value of **\$420.00 per week**. Marketing and agent selection has a measurable impact on the price your property rents for.

To be certain that the maximum price is achieved, we would like the opportunity to discuss the marketing of your property with you when you are ready to lease.

Market conditions can change suddenly; if there is a time delay between now and when you market your property it would be prudent to re-assess the probable market value at that time. We will always provide personal attention and the time required to ensure that your property is handled to the highest possible standard. We look forward to what we hope will be a long association with yourselves.

Should we be able to be of any further assistance please do not hesitate to contact myself directly.

Yours faithfully

Danai Thientosapol
